Story & World Bridge Expansion

The **Story & World Bridge Expansion** contains 60 cards designed to enhance *The Story Engine*® Deck prompts using cards from *Deck of Worlds*,™ and vice versa. This expansion includes 15  **Engines**, 15  **Conflicts**, 8  **Origins**, 14  **Attributes**, and 8  **Advents**. Shuffle these cards in with cards of the same type.

Cards in this expansion contain cues that prompt you to draw cards from other decks to add detail to them. Icons separated by a slash (/) indicate that you draw multiple cards and select 1. Icons separated by a plus (+) indicate that you draw multiple cards and keep all of them. Unless otherwise specified, tuck any card(s) under the Bridge Expansion cue in the order they appear.

Story Engine Deck cards from this expansion are marked with the  symbol. If you draw one of these cards, select your cue as normal and then follow the instructions below:

-  **Engine:** Review the icon(s) on your chosen cue. Rather than drawing and placing the card that this  **Engine** would normally be oriented toward, instead draw *Deck of Worlds* cards of the indicated type(s) and choose one or more to use in its place. Continue your prompt as normal.
-  **Conflict:** Review the icon(s) on your chosen cue. Draw cards of the indicated type(s) and choose the indicated number of cues to tuck under the  **Conflict**'s active cue.

A heretic wants to commune with the spirits of a divine city but they will have to let dark forces into their sanctum (a tower).

Region and **Landmark** cards can be expanded into full micro-settings, incorporating any **Namesakes**, **Origins**, **Attributes**, or **Advents** already tucked under them.

Deck of Worlds cards from this expansion are marked with the  symbol. If you draw

one, select your cue as normal. Then, review the icon(s) and draw and select cards of the indicated type(s) to tuck.

Agent and **Anchor** cards included in micro-settings can be expanded into their own story prompts.

Tip for Bridge Cues

Bridge cues work best when approached with flexible thinking. At first, some card pairings may seem unintuitive or work differently than the ones you are used to. Keep in mind that the least expected connection often holds the richest creative material. Dive in with an open mind. Feel free to adapt the process to suit your preferences, to discard and draw additional cards to explore alternate card pairings, and to invent new card arrangements to map the connections between cues.

The Lonely Lake has a school founded by like-minded people (fools or jesters) and a local motto incorporating a noun ("grave").
